“MESSAGE FROM MANAGING DIRECTOR

*Education is the passport to the future,
for tomorrow belongs to those who
prepare for it today.*

I am delighted to welcome the candidates seeking admission through Nascent Education Foundation Pvt. Ltd (NEF) Higher Experience and efficient career advisor are dedicated and motivated to serve the students. They are fully committed to produce best commitment who can fulfill the hopes and aspirations of parents. We are have to guide you towards your destiny by selecting the best for you.

Indian Culture

Its culture often labeled as an amalgamation of these diverse subcultures is spread all over the and traditions that are several millennia old.

The culture of India refers to the religions, beliefs, customs, traditions, languages, values and the way of life in and its people although differ Place to place but is similar to Nepalese so one always feel at Home .

India your best career destination providing a world Class Education next door!!!

India Today is the second largest higher education network in the World. Universities in India are set up by the Central or State Government by means of Legislation, while colleges are established by the state Government or private bodies or trusts.

There are many good reasons to choose India as the study destination as India has strong university network. With over 350 universities and 700 plus colleges offering the widest spectrum of Courses, India has the second largest education system in the world.

India has the third largest English Speaking population in the world and therefore, Medium of instruction in higher education is primarily English.

Quality of education is assured through National Bodies such as National Board of Accreditation (NBA) for technical education and National assessment and accreditation Council (NAAC) for Higher education.

India now is one of the best educational hubs of the world and Indian education now seems to be as good as that provided by the best of universities worldwide With the advancement of educational infrastructure and technology. It has been home to the best of institutes and has range of courses to offer. Realizing the huge market potential, foreign institutes are also entering into partnerships with Indian institutes.

Similarly over the past recent years there has been a sharp increase in the number of students aspiring to study Various Course in India. Making well-informed decision is more crucial while choosing a any course because it is highly sensitive when look at from the perspective of financial and time investment on the part of both parents and student. Therefore NEF have brought all Colleges /universities under one roof which has been built up by our expertise over 6 years ,who are committed to building a network of the colleges worldwide whose programmed follow a modern, international curriculum of the highest standard and accreditation. Focus is been on providing the Degree that has unique combination of academic theory and practical experience ensuring that all the graduates possess the skills and knowledge demanded by employers worldwide.

NASCENT को प्रतिवद्धता:

तपाईं पढ्न जाने कलेजसँग हाम्रो द्विपक्षिय सम्बन्ध रहिरहनेछ, तपाईंको अध्ययनलाई सार्थक तुल्याउन र बसाइलाई सहज पार्न हाम्रो पूर्ण सहयोग रहनेछ ।

NASCENT बाट जाँदा फाइदाहरु:

१. पढ्न पाईने सबै विषयमा पहिले नै राम्रो जानकारी ।
२. थुप्रै कलेज र विषयहरुमध्येबाट छान्न पाइने ।
३. खर्चको बारेमा पहिल्यै पूर्वानुमान, परिवारलाई योजना बनाउनु सजिलो ।
४. एकैठाउँबाट समुहमा विद्यार्थी जाने हुनाले विद्यार्थीलाई सहज हुन सक्छ ।
५. संस्थाबाट पहिलोचोटि भर्ना भएमा विद्यार्थीहरुलाई समुहमा पुर्‍याउने व्यवस्था हुन्छ ।
६. कतिपय कलेजमा विद्यार्थी सिधै जाँदा ठगिन सक्छन् त्यसैले NASCENT बाट जाँदा विद्यार्थी जोगिन सक्छन् ।

- ✓ A Culturally Diverse Nation and a Melting Pot of all Religions

HOW TO CHOOSE A RIGHT COURSE/RIGHT INSTITUTION

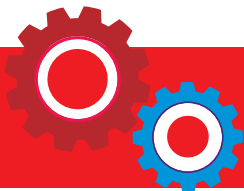

Choosing a Program of study and identifying an Institution that meets your requirement is a matter of research and analysis. This becomes very complex when the program offerings are huge and number of institutions large.

- First step in making the right choice is to look for various options available for area of study of your interest in terms of programs and institutions for a particular level (i.e. Undergraduate / Post Graduate or Pre-doctoral / Doctoral level or short duration programs). Then you need to look at options of institutions and specializations available in the subject area. After identifying the institution that offers specialization in your interest area, you could in get more details on different institutions. Finally subject to the institution meeting your requirements on all parameters, you can take the final decision.

Brief Introduction of different Courses

MANAGEMENT

Emerging economic development, globalization and incidents have brought many opportunities for those who seek future in this sector. Being a professional in the big corporate house is no more a dream. We are here to direct you for the bright future. We have reconciled with renowned colleges/universities to assist you, where they have bilateral relation with big multinational companies as well. This could be road map for you to represent yourself as successful corporate professional.

The field of management is very wide. The operational areas of business management may be classified into the following categories

Production Management, Marketing Management, Financial Management and Personnel Management.

Our Achievements:

- 11 years of excellence
- Serving more than 400 top ranked Universities/Colleges with same commitment
- More than 2000 students has been successfully sent India & abroad.
- Nepalese students are placed in multinational companies in Nepal & abroad.

M.Sc. Chemistry
M.Sc. Maths
M Phil & PhD

NURSING

The increasingly complicated lifestyles are giving birth to a variety of ailments, which have made Physicians with an MBBS/BDS degree to handle all ailments. It is here that specialization in a particular branch of medicine becomes a necessity. MBBS/BDS can give career options to: Doctors can find employment in Government or private Hospitals:

- In Nursing homes/clinics/health departments.
- In medical services of the army, navy and air force, under the Ministry of Defense.
- In charitable institutions.
- In medical/Dental colleges and training institutes as teachers.
- In research institutes and medical colleges as researchers.
- In the industrial sector.
- Private practice / self employment.

MBBS BDS

Plenty of career opportunities are available for nursing nowadays. On the completion of their studies, students can get jobs with many private as well as public sector undertakings. A few of the areas where students can get jobs comprise of:

- Clinics and Health Departments
- Defense Services
- Hospitals
- Industrial Houses and Factories
- Nursing Science Schools
- Railways and Public Sector Medical Departments
- Training Institutes

It is also possible for nursing students to work with charitable institutions such as Old Age Homes and Orphanages. Job opportunities are available for nurses at Nursing Homes too.

PHARMACY

Pharmacy offers reasonably good career opportunities both by way of jobs as well as in terms of starting your own business. Increasing number of hospitals, nursing homes and pharmaceutical companies all over the country is a clear indication of the growing scope in this area.

Openings exist in hospitals, dispensaries, nursing home, drug manufacturing industries and research laboratories both in the public and private sectors. Drug control administration and Armed Forces also offer a wide range of opportunities to Pharmacists. Appointments are also available in sale promotion work as Medical Representatives. Pharmaceutical technologists (M. Pharm or Ph. D) are normally absorbed in research work, to develop new useful drugs, in laboratories and in production work in pharmaceutical industry. Such pharmacists may also be absorbed as lecturers in pharmacy colleges.

After obtaining a diploma or degree in pharmacy, and after registering with the State Pharmacy Council, you can set up your own pharmacy or chemist's and druggist's shop to stock and sell medicines and dispense them according to doctors' prescriptions.

B.Arch
M.E./M.Tech:
All Branches

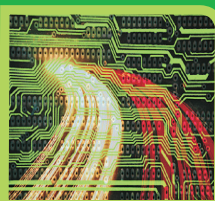

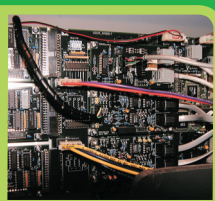

With the shift system being introduced in polytechnic and engineering colleges, there is tremendous squeeze in the job markets. Hence, fresh engineering graduates should be alert in grabbing the opportunities coming their way or take up higher studies.

Every engineering branch has its significance. It depends on the choice of the student. Today most jobs are available in service sector. Students are mostly absorbed in the core sector unlike ECE. Core sector means sectors like power. ECE has many opportunities and students are not opting for it due to lack of awareness.

Any engineering course has lot of scope. Any raw material to be converted into a product, it has to undergo many processes involving chemicals. Almost everything we use is chemically processed. India's top industrialists like Mukesh Ambani and others are chemical engineers. You can join any manufacturing industry and go towards research and development. A student of chemical engineer can also specialize in various fields like biotechnology, environmental engineering and others. If you want to move into service industry like IT, which has many branches, then functional knowledge is necessary.

Every branch offers good employment opportunity. Engineering is a design-oriented subject. Design involves problem solving. If you become a good problem solver, every branch of engineering offers you job opportunity. You are advised to go through the subjects taught in each branch and decide which branch is most interesting to you.

As the field of engineering incorporates new technologies, the appropriate scope of undergraduate education in engineering continues to grow. It appears unlikely that course breadth can be widened to accommodate this growth, at every institution, by increasing the length of the undergraduate engineering curriculum. Therefore, with increases in breadth must come sacrifices in depth of coverage for many subjects.

DASA (UG) 2023 Eligibility Criteria:

1. Qualification:
 - ☒ 10+2 or equivalent from any system of education as recognized by the association of Indian universities
2. Subjects:
 - ☒ Physics & Mathematics (Compulsory)
 - ☒ Chemistry, Bio-Technology, Computer Science, Biology (Optional)
3. Percentage/CGPA:
 - ☒ Minimum 60% aggregate or 6.75 CGPA on a 10 point)
4. SAT-II Score:
 - ☒ Minimum 1800 (out of 2400)

About SAT II:

SAT-Subject tests were earlier known as SAT-II. This is administered by 'College Entrance Examination Board & (College Board), USA. The SAT is globally recognized college admission test that lets you show colleges what you know and how well you can apply the knowledge. SAT-II Score is required for NIT Admission through DASA Scheme. For NIT Admission, a candidate should have taken Physics, Chemistry and Mathematics-II in SAT Subject Test with minimum score of 1800 out of 2400.

For more details on SAT Subject Test visit:

- ✓ Minimum GPA in Biology =3.5 out of =5

ADMISSION OPEN

**Reasons to choose
MBBS/BDS in Bangladesh:**

- Curriculum is global standard
- Recognized by all councils including NMC, BMDC and MCI
- WHO enlisted
- Affordable cost and flexible payment system (Fees can be Paid in installments)
- Scholarships are available for meritorious students
- Qualified and experienced teaching faculty
- Friendly environment with food & culture similar to Nepal, India & Sri Lanka
- Intern Doctors get salary per month from majority of colleges
- Colleges have own hospitals with good patient flow
- Short travel distance from Nepal, India & Sri Lanka
- Remarkable pass rate in licensing Examinations conducted by NMC.

MBBS/BDS in BANGLADESH

HOW TO CHOOSE A MEDICAL /DENTAL COLLEGE?

1

Admission based on your child's rank in Entrance Exam

is your child's rank in the medical entrance exam good enough to secure his/her admission in one of the eminent colleges in Nepal?

2

Past Academic Record

Academic achievement of previous batches is an important determinant while choosing a medical college

3

Hospital Infrastructure & Equipment

The more than diagnostic facilities in various departments like Radiology, Lab, Emergency, OT, etc. are available, the more your child gets to learn.

4

Location of the Hospital

The location of the hospital of college must be in densely populated area so that it is easily accessible to the patients and also doctors working there.

5

Average number of patients per day

A good medical college has good number of patient visits per day in its OPD and also high bed occupancy in different wards. More the patients, more the variety of cases your child will come to see in his/her clinical postings.

6

Faculty Members and Staff

Not all medical colleges have a good team of faculty. Some of the good private colleges in Nepal and abroad hire the best professor, offer them high pay, and try to retain them.

7

Free Structure

Free structure must be justified as per the quality of academic. There are several private medical colleges with very high fee structure despite their poor quality of academics.

8

College Infrastructure & Equipment

Apart from modern infrastructure, a good medical college must also have adequate medical equipment like Basic Science lab equipment, instruments cadavers, etc.

9

Hostel Facilities

Hostel facility can never be neglected as you are going to spend the most unforgettable 5-6 years of your life here.

With lots of doubts about my upcoming study, I reached Nascent for getting suggestions. You won't believe but that's true, Nascent gave me the best advice I could ever had. I found myself lucky to be the part of Nascent. I will always be the admirer of it.

Menka Shah
B.Sc. Nursing
Karnataka College of Nursing

In the world of selfishness and cheat Nascent has proved itself different from others by prioritizing honesty. Its work speaks for it. I am thankful to my friend who suggested me Nascent to get counseling for my career

Aakash Kumar Yadav
B. Pharma
Karnataka College of Pharmacy

I am lacking with words to praise our Nascent, which is known for keeping its promises. It has not only given me the opportunity but also helped me to select the course which suits me.

Renu Yadav
B. Optometry
Parul University, Gujrat

I would have kept on wandering if I hadn't got Nascent. It was my fate, I got the opportunity of getting counseled regarding my career from such an experienced and one of the best counselors of Pradesh No. 2.

Pappu Yadav
B.Tech (Civil)
GIET University, Gunupur
